Test Results and Evaluations

SNA Europe (Industrie) AB, Bruggevägen 3, SE - 828 32 EDSBYN

Application field

Lifting and pulling in thin timber processing.

Test item	Test result
Handling	Good non-slip ergonomic handle, good force transmission. Tip bores well into wood. Tip with transportation protection.
Reliability	Material quality and workmanship is good. Very stable, no deformation when loaded at the handle with 1600 N. No damage during the test.
Work safety	Operational limits must be observed for ergonomic reasons.

Design

Hook made of high-quality tempered steel, laser-cut with ground tip. Generously designed grip area coated with non-slip plastic.

Technical specifications

Overall length	244 mm
Overall width	156 mm
Useable grip length	106 mm
Grip diameter	18 mm
Hook cross section	Rectangular profile: 17 mm x 5,7 mm
Weight	425 g

In the field of measurement tolerances, the BAHCO lifting hook (Art. no. 1204) is still manufactured unchanged.
