Test results and evaluations

SNA Europe (Industrie) AB, Bruggevägen 3, SE - 828 32 EDSBYN

Application field

Lifting hook for placing softwood and hardwood logs on piles

Test item	Test results
Handling	Very good non-slip ergonomic handle, good force transmission, tip dig deep into log.
Reliability	Material quality and workmanship is good. Very tough, no deformation when handle is exposed to a force of 1600 N No defects during test.
Work safety	Operational limits must be observed for ergonomic reasons.

Description

High-tensile stainless steel with forged tip, D-shaped handle fitted with plastic grip (oval cross-section). Handle turned by 90° to hook.

Technical specifications

Length:	267 mm
Width overall/handle:	142 mm / 109 mm
Hook opening:	80 mm
Diameter:	12 mm
Weight:	483 g

In the field of measurement tolerances, the BACO lifting hook with D-shaped handle (Art. no. 1210) is still manufactured unchanged.
