## Test results and evaluations

### Spencer forestry tape measure super 15 m, 20 m and 25 m

Grube KG Forstgerätestelle, Hützeler Damm 38, D-29646 Bispingen

#### Application field

Measuring long and short logs

Test item	Test results
Operation	Simple, pre-tensioned spring mechanism for easy spooling. Excellent spooling quality. Claw hook or quick-release hook for safe grip in wood.
Measuring tape	Tape made from spring steel, graduated on both sides. Good readability, centimetre graduation with decimetre and meter marks (red) on yellow background.
Maintenance	Open tape spool, therefore somewhat susceptible to dirt, but also easier to clean and maintain. Simple replacement, some experience needed.

#### Description

Aluminium case with sealed spring, replaceable tape, riveted end piece protected by rubber bumper.

#### Weight and dimensions

	15 m	20 m	25 m
Case diameter	102 mm	102 mm	102 mm
Height	43 mm	43 mm	43 mm
Weight	510 g	600 g	690 g

Field tested by professional users

**The Spencer forestry measuring tape Super 15 m, 20 m and 25 m will continue to be manufactured without change.**

**Extension of existing approval until September 2023**

(First approved in April 1986)
