## PAW

Available in three sizes, the PAW rigging plate allows the organizing of the workstation and setup of multi-anchor systems. The hole design allows ropes or slings to be threaded for direct connection. Made of forged aluminum, it offers an excellent strength-to-weight ratio.

The recessed area in the center of the plate makes the markings more durable.

The hole design allows ropes or slings to be threaded for direct connection.

**Short Description** Rigging plate

---

**Selling Points**

- For easy organization of the workstation and setup of multi-anchor systems:
  - 19 mm holes allow the locking sleeves of most carabiners to pass through, enabling the carabiner to be rotated
  - hole design allows ropes or slings to be threaded for direct connection.
  - main attachment hole accepts up to three carabiners
  - the odd number of attachment holes enables the system to be centered and balanced
  - up to three users can be connected at the same time
- Durability:
  - made of forged aluminum for an excellent strength-to-weight ratio
  - durable markings, thanks to the recessed area in the center of the plate
- Available in three sizes and a black version
- Two wide auxiliary attachment holes (size L only), compatible with the CONNEXION FIXE and CONNEXION VARIO anchor straps.

---

**Specification**

- Material(s): aluminum
  - Certification(s): CE, NFPA 1983 General Use
-
